

Dr. Sergio Ulgiati is the founder, in the year 1998, of the series of Biennial Workshops 'Advances in Energy Studies'. He is Professor of 'Life Cycle Assessment' and 'Environmental Certification' at the Parthenope University of Napoli, Italy. His research interests are in the fields of Environmental Accounting and Energy Synthesis, Life Cycle Assessment, Energy Analysis. His main research goal is to provide evaluation tools for better understanding of the interplay of human societies and nature across space and time scales, focusing on the role of resources and environment in societies, proper resource management, and finally the need for preserving the environmental integrity while also using resources and developing economic systems.

Dr. Ulgiati is member of the Editorial Board of the International Journals of Energy, Ecological Modelling, and Environment, Development and Sustainability.

He is also the President-elect 2010-2011 of ISAER - The International Society for the Advancement of Energy Research.
