LETTER OF OFFER

Date _____

The Registrar,
Indira Gandhi Institute of Development & Research,
Gen. A.K. Vaidya Marg, Film city Road,
Goregaon (East), Mumbai 400065.

Subject: Tender for Repair & painting works of 'G' Building (2 wings) at IGIDR Campus, Mumbai.

Reference: NIT No. IGIDR/Tender/2020/ED/04 Date: 05th February 2020

Dear Sir,

With respect to your above mentioned tender, we hereby submit our tender in the required format along with Company Profile and supporting documents.

Should this tender be accepted, I/We hereby agree to abide by and fulfill the terms and provisions of the said Conditions of Contract annexed hereto so far as they may be applicable or in default thereof to forfeit the EMD and pay to the IGIDR the amount mentioned in the said Conditions.

We have deposited DD/FDR/BG as an earnest money to the IGIDR, which will not bear any interest.

Should we fail to execute the contract when called upon to do so. We do hereby agree that this sum shall be forfeited by us to the IGIDR.

We have carefully gone through the terms and conditions prescribed and we accept the same in to without any alterations / modifications.

Yours faithfully,

Signature

Name & seal of Bidder

* The bidder should submit the Letter of Offer on their company letterhead.

SECTION-B

GENERAL INSTRUCTIONS TO BIDDER

Sealed Tender should be addressed to The Registrar, Indira Gandhi Institute of Development Research, Goregaon (East), Mumbai-400065 and superscripted ~ **Tender for “Repair & painting works of ‘G’ Building (2 wings)” at IGIDR, Goregaon (E), Mumbai.**

1. Bidder has to submit Earnest Money Deposit Rs. 66 ,000.00 (Rupees Sixty six thousand only) in the form of Demand Draft/Fixed Deposit Receipt/Bank Guarantee issued by commercial bank drawn in favour of “INDIRA GANDHI INSTITUTE OF DEVELOPMENT RESEARCH” payable at Mumbai, should be enclosed in the separate envelope submitted along with Pre-qualification bid envelope.
2. The Tender documents in sealed envelope, supported by prescribed annexure; EMD, Pre-qualification bid/Technical bid and financial bid shall be placed in separate sealed envelopes each marked as **“Envelope-1: EMD”, “Envelope-2: Pre-Qualification Bid and Technical Bid” and “Envelope-3: Financial bid”** respectively. All envelopes shall be submitted together in another sealed envelope superscripted as **“Tender for Repair works of ‘G’ Building (2 wings)”**. The bids will be received up to **02:00 PM on 19th February 2020**. Each copy of the tender document under their stamp and signature. No tender will be accepted after due date under any circumstances whatsoever.
3. The envelopes Marked “EMD & Pre-qualification and technical Bid” shall be opened by REGISTRAR or his authorized representative in his office on the same day at **03:00 PM**. In case, holiday is declared by the Government on the day of opening the bids, the bids will be opened on the next working day at the same time.
4. Financial bid of only prequalified and technically qualified bidders will be opened. The date of opening of price bid shall be informed by institute to the qualified bidders.
5. Tenders shall remain valid for acceptance by the Institute for a period of three months from the date of opening of the tender which period may be extended by mutual agreement and the bidder shall not cancel or withdraw the bid during this period.
6. The bidder must use only the bid forms issued by the Institute to fill in the rates. Any addition/alteration in the text of the Tender form made by the bidder shall not be valid and shall be treated as null and void.
7. The Tender form must be filled in English. If any of the documents is missing or unsigned, the tender may be considered invalid by the Institute in its discretion.
8. Rates should be quoted both in figures and in words in columns specified. Overwriting of figures is not permitted. Failure to comply with either of these conditions will render the tender void at the Institute's option. No advice whatsoever especially on any change in rate specifications after the opening of the tender will be entertained.
9. Each Page of the Tender Documents should be stamped and signed by the authorized person or persons submitting the Tender in token of his/their having acquainted himself/themselves with the General terms & conditions, specifications, special conditions of contract, etc. as laid down. Any Tender with any of the documents not so signed will be rejected.

10. Tender which is not accompanied by EMD will not be considered. The EMD will be returned to the bidder if their tender is not accepted by the Institute but without Interest. The EMD paid by the successful bidder shall be held/encashed by the IGIDR as security for execution and fulfillment of the contract. No interest shall be paid on this deposit. The Earnest Money Deposit (EMD) of the successful bidder may be converted into Performance Security Deposit. **The firm who are exempted from submission of EMD, bidders should submit the copy of certificate issued by Micro and Small Enterprises (MSEs).**
11. The Institute does not bind itself to accept the lowest or any tender and reserves to itself the right to accept or reject any or all the Tenders, either in whole or in part, without assigning any reasons for doing so.
12. Institute reserves the right to sub-divide the work mentioned in the tender, amongst two or more bidders at its own discretion and the successful bidders will have to execute orders for part of the items placed with them at the quoted rates. Institute also reserves the right to increase or decrease the quantities and even omit any item of work after the order is placed and the successful bidder shall execute the same without claiming anything extra for the same. In this context the rates quoted for each item must be self-supporting and relevant.
13. On receipt of intimation from the Institute of the acceptance of their tender, the successful vendor/contractor shall be bound to sign the formal contract and within seven days thereof, the successful contractor shall sign an agreement in accordance with the draft agreement and the Schedule of Conditions but the written acceptance by the Institute and the Contractor so, whether such formal agreement is or is not subsequently executed. The cost of necessary Stamp paper for execution of the agreement shall be borne by the successful contractor.
14. The rates quoted in the financial bid shall include all the statutory expenses like PF, ESIC, etc. wherever applicable. The rates quoted shall be final and shall not subject to any variations in foreign exchange rates, labour conditions or other conditions whatsoever.
15. Financial bid must include in their rates, applicable GST and any other tax and duty or other levy in force levied by the Central Government or any State Government or Local Authority, if applicable.
16. The intending bidder can obtain any clarifications regarding the tender document, scope of work etc. if any from the office of the Mr. Amit Gaikwad (Estate Officer), Estate Department on any Institute`s working day.

We hereby declare that we have read and understood the above instructions and the same will remain binding upon us.

SECTION-‘C’
GENERAL TERMS AND CONDITIONS

Upon the declaration of an intending bidder to be the Successful Bidder by the Institute, they shall be subject to the following terms and conditions that shall form part of the Formal Contract to be executed with the Institute.

1. The successful bidder shall not assign the sub-contract. He shall not sublet any portion of the contract except with the written consent of the IGIDR. In case of breach of these conditions, the IGIDR may serve a notice in writing on the Contractor rescinding the contract.
2. The successful bidder must co-operate with the other contractor appointed by the Institute so that the work shall proceed smoothly to the satisfaction of the Institute.
3. The work has to be carried out with least inconvenience to the staff.
4. The Contractor should note that unless otherwise stated the tender is strictly on item rate basis and his attention is drawn to the fact that rates for each and every item should be correct, workable and self-supporting. The quantities in the Schedule of Quantities approximately indicate the total extent of work but may vary to any extent and may even be omitted thus altering the aggregate value of the contract. No claim shall be entertained on this account.

The contractor shall bring to the notice of the Employer in case of any extra items not mentioned in the schedule of quantities during the course of the work and shall only carry out the same on written approval from the Institute's Engineer.

5. The successful bidder is bound to carry out any or all items of work necessary for the completion of the job even though such items are not included in the quantities and rates. Schedule of Instructions in respect of such additional items and their quantities will be issued in writing by the institute. The rates for such extra items shall be worked out on the basis of a rate analysis considering the basic material prices with market discounts plus labour cost plus the profit & overheads component of 15% over the material & labour cost.
6. The successful bidder shall comply with the Labour acts or any other Labour Laws in force from time to time for all of the workers employed by him.
7. In case the successful bidder contravenes any provisions of the law, and the Institute suffers any damage or loss or harm due to any acts of commission or omission of the Contractor, the Contractor is bound to indemnify the Institute. The Contractor shall also be responsible for the discharge of all legal liabilities towards the Institute and also for observing all laws and Government rules relating to labour laws.
8. The successful bidder has to obtain permission from the local authorities as per the existing local bye laws for such works and the charges/fees if any, has to be borne and paid by the contractor.
9. The successful bidder should have valid labour license from Labour Commissioner wherever the number of workmen engaged is 50 or more.

10. The successful bidder shall have the addresses and photographs of their workmen being engaged by them for the said work. The entry of workmen will be allowed inside the building only on producing the photo pass issued by the Contractor/Institute.
11. The successful bidder has to transfer the payment of wages to his labour/staff to their respective bank account every month. The contractor shall produce copy of the bank statement for salary transfer to his workmen, copy of PF, ESIC challan, and GST challan etc. before final payment whenever asked by the Institute.
12. In all matters of dispute arising on the work, the matter shall be referred to **The Registrar, Indira Gandhi Institute of Development Research, Goregaon** for a decision.
13. The successful bidder shall carry out all the work strictly in accordance with scope of work, specifications and as per detailed instructions of the Institute's Engineer. If in the opinion of the Institute's Engineer, changes have to be made in the design and with the prior approval in writing of the Employer they desire the successful bidder to carry out the same. The Institute's Engineer's decision in such cases shall be final.

14. Arbitration Clause:

In the event that the Successful Bidder is not satisfied by the decision of the Registrar, Indira Gandhi Institute of Development Research, the dispute shall be settled by arbitration in accordance with the provisions of arbitration and conciliation act, 1996 or any enactment thereof. The Arbitral Tribunal shall consist of one arbitrator, to be appointed by the Institute. The place of arbitration shall be Mumbai and any award whether interim or final, shall be made, and shall be deemed for all purposes between the parties to be made in Mumbai. The arbitration proceedings shall be conducted in the English language and any award or awards shall be rendered in the English language. The procedural law of the arbitration shall be the Indian law. The award of the arbitral tribunal shall be final, conclusive and binding upon the Successful Bidder and the Institute.

15. Insurance Clause:

The successful bidder shall be responsible for all injury to person, animals or things and for all structural and decorative damage to property which may arise from the operation or neglect of himself or of any nominated sub-Contractor's employees, whether such injury or damage arise from carelessness, accident or any other case whatever in any way connected with the carrying out of the contract.

Workmen Compensation Policy for all the employees/workmen to be deputed on the site as per the workmen compensation act which should also cover hospitalization.

16. Defect Liability Period:

The defect liability period for the work done by the contractor should be for 12 months from the date of completion of work. Any defect or fault which may appear during 12 months from the date of virtual

completion of work/or supply and installation in full as specified under the contract, arising in the opinion of the Institute's Engineer from materials or workmanship not in accordance with the contract, shall upon the directions in writing of the Institute's Engineer, and within such reasonable time as shall be specified therein, be amended and made good by the Contractor at his own cost and in case of default the Institute may employ and pay other persons to amend the make good such defects/faults and damages, loss and expenses consequent there upon or incidental thereto shall be made good and borne by the Contractor and such damages, loss and expenses shall be recoverable from him by the Institute, or may be deducted by the Institute upon the Institute's/Institute`s Engineers' certificate in writing from any moneys due or that may become due to the contractor. The contractor/supplier shall remain liable under the provisions of this clause notwithstanding the signing by the Institute's Engineer any certificate or passing of any accounts. The above defects Liability clause does not hold good for water proofing works. For water proofing work the guarantee period should be for **5 years** from the date of completion of work.

17. Security Deposit:

- a) **Contract Performance Guarantee:** The successful bidder will have to deposit a Contract Performance Guarantee of 5% of the total contract amount, subject to the revision at the time of placing the work order, within 7 working days of the receipt of the formal work order. The performance guarantee will be furnished in the form of an account payee Demand Draft, Fixed Deposit Receipt or Bank Guarantee from a commercial bank drawn in favour of “Indira Gandhi Institute of Development Research” payable at Mumbai. The performance guarantee should remain valid for a period of 60 days beyond the date of completion of work by the successful bidder.
- b) **Retention Money Deposit:** The successful bidder will have to furnish retention money deposit (RMD) for an amount equal to 5% of the total contract amount. The Earnest money deposit (EMD) @2% submitted at the time of tender and an amount @3% deducted from each running bill shall be part of retention money deposit. The 2% of EMD retained as RMD shall be released after successful completion of work and handing over of the site. The 3% of RMD retained from running bill shall be released after the completion of defect liability period & the waterproofing warranty period of 5 years.

The security deposit of the successful bidder will be forfeited if they fail to comply with any of the conditions of contract. No interest will be paid on Security Deposit withheld by the Institute.

18. Mode of Payment:

Payment shall be made to the contractor after successful completion of work on prorata basis within 15 working days of submission of certified invoice along with measurement book as per actual measurement of work done. The interim value of work done for processing of running bill shall be Rs. 10, 00,000.00.

The amount @ 3% shall be deducted from each running bill as retention money deposit which shall be payable after the completion of defect liability/warranty period.

19. Completion Period:

The time allowed for the completion of work shall be 2 months commence from 4th day of award of the work order, subject nevertheless to the provisions for extension of time.

20. Penalty Clause:

Time allowed for carrying out the work is 2 months, which shall be strictly observed by the successful bidder and it shall be reckoned from the 4th day of issue of work order. The work shall throughout the stipulated period of the contract be preceded with all the due diligence and if the Contractor fails to complete the work within the specified period he shall be liable to pay compensation at the rate of 1% per week subject to a maximum amount of 10% of the contract amount. The Tender shall before commencing work prepare a detailed work program which shall be approved by the Institute's Engineer.

Any damage cause to any of Institute's properties shall be made good by the successful bidder at their own cost.

21. Termination Clause:

21.1 Without prejudice to any other remedy available to the Institute, in case of default on the part of the contractor in the performance of this contract or in the discharge of any contractual obligations arising out of this contract or if the contractor commits substantial breach of his obligations and such breach is not corrected within 7 (seven) days from the date of receipt of the notice specifying the breach, by the contractor, the Institute may terminate this contract by giving a 15 (fifteen) days written notice of intended termination to the contractor.

21.2 In the event of this Contract being terminated, the Institute shall be liable to make payments of the amount due under this Contract up to the effective date of termination for which services (including parts thereof) have been rendered by the Contractor subject to clause 15.5 hereunder.

21.3 Notwithstanding anything contained herein above, the Institute may terminate this contract at any time by giving one month's notice to the Contractor without assigning any reason thereof and without prejudice to the rights of the Institute to recover any money becoming due and payable to the Institute under this Contract. The Contractor may terminate this Contract at any time by giving two months' notice to the Institute without assigning any reason thereof.

21.4 Forthwith on the expiry or earlier termination of this Contract, the Contractor shall, return to the Institute all materials and equipment, belonging to the Institute with regard to this Contract. The

Institute shall also intimate to the Contractor a time when it can collect its equipment stored in the Institute and the Contractor shall collect the same. In the event that the Contractor does not collect its equipment by the appointed time, the Institute shall not be liable for the same thereafter.

21.5 Forthwith on the expiry or earlier termination of this Contract, the Institute shall determine the costs of execution, cost of remedying any defects (if any) and the cost of completion of the work (if required). The Institute shall be entitled to recover from the Contractor the extra costs, if incurred, after adjusting the same against the Performance Security Deposit made by the Contractor.

21.6 On the earlier termination of this Contract due to failure to discharge its duties, the Performance Security Deposit shall stand forfeited by the Institute.

I/We hereby declare that I/we have read and understood the above terms and conditions that form part of the Formal Contract to be executed between I/us and the Institute. The same shall be binding upon me/us upon being declared as the Successful Bidder.

SECTION-‘E’
TECHNICAL BID

1. GENERAL:

The Contractor shall include in his rates for all the items listed in this Section.

1.1 Contractor to Inspect Site:

The Contractor shall visit and examine the work site and satisfy himself as to the nature of the existing roads or other means of communications, the extent and magnitude of the work and facilities for obtaining materials and shall obtain generally his own information on all matters affecting the execution of the work. No extra charge made in consequence of any misunderstanding or incorrect information on any of these points or on the ground of insufficient description will be allowed. All expenses incurred by the contractor in connection with obtaining information for submitting this Quotation including his visits to the site or efforts in compiling the bid shall be borne by the bidder and no claims for reimbursement thereof shall be entertained.

1.2 Access to site:

The Contractor is to include in his rates for forming access to the site, with all temporary roads and gangways required for the works.

1.3 Setting out:

The Contractor shall set out the building in accordance with the plans. All grid/ centre lines shall be pegged out to the satisfaction of the Architects. The contractor shall be responsible for the correctness of the lining out and any inaccuracies are to be rectified at his own expense. He will be responsible for taking ground levels of the site before setting out and recording them without any extra charge.

The Contractor shall construct and maintain proper benches at the intersection of all main walls, columns etc., in order that the lines and levels may be accurately checked at all times

1.4 Treasure Trove:

Should any treasure, fossils, minerals, or works of art of an quarial interest be found during excavation or while carrying out the works, the Contractor shall give immediate notice to the Institutes of any such discovery and shall make over such finds to the Employer.

1.5 Access for Inspection:

The Contractor is to provide at all times during the progress of the works and the Maintenance period proper means of access, with ladders, gangways etc. and the necessary attendance to move and adapt as directed for the inspection of measurement of the works by the Engineers of their representatives.

1.6 Attendance upon all Trades:

The General Contractors shall be required to attend on all the Tradesmen or Sub-Contractors/Contractors appointed by the Employer for Water Supply and Sanitary, Electrical Installation, Lifts, Air-conditioning, Security Equipment, Hardware, Telephone and other Specialist Contractors. The rates quoted shall be inclusive of all attendance and also allow the other contractors, appointed by the Employer, use of his scaffolding and retain until such time the relevant sub-Contract works are completed.

1.7 Water supply:

Potable & Construction Water shall be arranged by the contractor at his expense and the Institute shall not be responsible for the supply of the same, The contractor while quoting has to include the cost towards the same in the rates quoted and no extra payment shall be made towards the same.

1.8 Electric Supply:

Electric connection shall be given by the client at one point; the contractor should make his provision for drawing the electricity from that point at his cost. A meter shall be installed at one point and the electricity used shall be measured and billed as per the prevalent electricity board rates plus Administrative charges of the Institute as mutually decided.

1.9 Caretaker and Watchmen:

The Contractor from the time of being placed in possession of the site must make arrangements for watching, lighting and protecting the work, all materials, workmen and the public by day and night on all days including Sundays and Holidays at his own cost.

1.10 Storage for Materials:

The Contractor shall provide for all necessary sheds of adequate dimension for storage and protection of materials like cement, lime, timber and such other materials including tools and equipment which are likely to deteriorate by the action of sun, wind, rain or other natural causes due to exposure in the open. For cement the contractor shall arrange for leak proof go down of sufficient size to store not less than 3 months requirement of cement.

All such sheds shall be cleared away and the whole area left in good order on completion of the contract to the satisfaction of the Institute's Engineer.

All materials which are stored on the site such as bricks, aggregates etc. shall be stacked in such a manner as to facilitate rapid and easy checking of quantities of such materials.

1.11 Cost of Transporting:

The Contractor shall allow in his cost for all transporting, unloading, stacking and storing of supplied of goods and material for this work on the site and in the places approved from time to time by the Engineers. The Contractor shall allow in his price for transport of all materials controlled or otherwise to the site.

2. SPECIFICATIONS:

a) Waterproofing:

The cement based waterproofing work shall be carried out through approved contractor with 10 years guarantee as per their specifications under the supervision of the contractor.

c) **INDIAN STANDARDS AND CODES OF PRACTICE**

The book of specification and the various sections therein are intended for particular application to the tests/works under the contract. However the given specifications may not cover all the tests. Such tests, which are not covered in the specifications, shall be in accordance with the latest and most current revisions standards and codes of practice published by the **Bureau of Indian Standards, Manak Bhavan, 9 Bahadur Shah Jafar Marg, New Delhi** and available through their local branches.

In case of conflict between the Indian standards and the specifications included in the contract documents, the more stringent, shall prevail.

Related documents and their precedence

The items in specifications should be in conjunction with the relevant drawings, bill of quantities, general and special conditions of contract. In case of conflict between the specifications and other documents, the precedence shall be in the following order in priority: 1) special conditions of contract 2) bill of quantities 3) drawings 4) specifications 5) general conditions of contract

d) **TESTING & INSPECTION**

The engineer may issue instructions requiring the contractor to open up for inspection any work covered up or to arrange for or carry out tests for work and the cost of such opening up or testing shall be borne by the contractor & shall be in accordance with the provisions of this contract.

e) **QUALITY CONTROL**

- GENERAL

The contractor shall provide and maintain an effective contractor quality control (CQC) program and perform sufficient inspections and tests of all items of work, to ensure compliance with contract documents. Includes surveillances and tests specified in the technical sections of the specifications. Furnish appropriate facilities, instruments, and testing devices required for performance of the quality control function. Controls must be adequate to cover construction operations and be keyed to the construction sequence.

- LATEST DOCUMENTS

The contractors quality control system shall provide for procedures to ensure that the latest version of contract documents and instructions required for testing and inspection and have them available at the site at all times for use by the contractors staff.

- SCAFFOLDS AND LADDERS

Scaffolds and ladders used during the course of work shall be in accordance with IS: 3696 Part 1 and Part 2.

The scaffolding shall be designed and erected by the contractor in accordance with the requirements of the work, by experienced workers. All scaffolding material shall be in good serviceable condition and assembled to be stable in the conditions of the work being performed.

- MECHANICAL EQUIPMENT

Do not use mechanical equipment without the prior approval of the institute's engineer.

Do not use gas cutting and electric welding or cutting without the prior approval of the institute's engineer. Take special precautions to prevent fire if permission is granted for gas and electrical cutting and welding.

f) THE MAIN CONTRACTOR

- RELATIONSHIP WITH THE CLIENT

A close relationship and continuous interaction must be maintained with the client and the Managers of the contractor. The client does have specific safety and health requirements to be observed and co-operation with his Project Managers or other representatives, throughout the contract is essential. The prospective contractors are given information on which to base their tenders and at the Tender Stage, the prospective contractors are expected to understand fully the Scope and Design Intent of these provisions.

- PLANNING

Detailed planning should take the following matters into account

- Knowledge of hazardous operations.
- Requirement for equipment to ensure safe working, or ease of handling.
- The sequence of work and its phasing between contractors, to minimize the possibility of one contractor placing another contractor's men at risk.
- The need to provide information, instruction and appropriate training, both on general site safety and on hazards specific in the site.
- The need for fire precautions and emergency procedures.

- Site security and foreseeable risks to the public, including the need for directional and warning signs.
- Safe access across the site for persons. Thought should be given to arrangement for keeping the site tidy, accommodation for site staff, welfare, first aid and other facilities.
- The provision of safe places of work at different stages of the job including the provision of scaffolding for a number of sub/works contractors.

- CO-ORDINATION

The site Manager must be totally responsible for compliance with health and safety code. The Construction Manager must take suitable arrangements to ensure the effective co-ordination of the work of with other contractors on site. He should ensure that he is kept informed on a day to day basis, of progress and problems, which arise. Clear lines of communication should be set up between each contractor and the Safety Officer of the Main Contractor. Operatives must also know whom to contact over safety and health matters requiring action or a decision. Such effective co-ordination will be enhanced by ensuring that 'safety and health' figures prominently on the agenda of regular project meetings. Weekly report on safety must be submitted to the Project Controller in every Project Meeting.

g) NON-COMPLIANCE OF SAFETY AND HEALTH PROVISIONS

The Compliances of the Safety and Health provision are of utmost important to the Client. The prospective contractors must do that the client will have a serious view of any non compliance report of Safety Committee. Based on Safety Committee's report, the Client has right to order stoppage of work till rectification is carried out to the satisfaction of the Safety Committee and all stoppages on this account will be at the entire risk, costs and consequences of the Contractor.

h) ACCIDENT PREVENTION ORGANISATION

FIRST AID KIT

Regardless of the number of employees there must be at least one first aid box on site. Every first aider and occupational first aider should have easy access to first-aid equipment, and provision should be made for every employee to have reasonably rapid access to first aid. Each box should be placed in a clearly identified and readily accessible location, and contain a sufficient quantity of suitable first aid materials and nothing else. Boxes and kits should be checked frequently to ensure they are fully stocked and all items are in a usable condition. Sufficient quantities of each item should always be available in every first aid box or cabinet. The first aid box or cupboard should protect the contents from dampness and dust and be clearly marked with a white cross on green background.

i) FIRE PREVENTION

Electrical wiring equipment for heating or power purposes must be installed in compliance with the requirements. Internal combustion engine powered equipment must be located with exhausts well away from combustible materials. Smoking is to be prohibited in the vicinity of fire hazards, and such areas must be conspicuously posted. Care shall be taken properly to ground nozzles, hoses, or steam lines used in hazardous tanks or vessels.

j) PERSONAL PROTECTION

Workers are often reluctant to use protection equipment. Such items should not only be suitable for their purpose but also be as comfortable as possible and acceptable to the workers concerned. Only then can efforts to ensure that equipment is worn or used prove successful.

All necessary personal safety equipment as considered adequate by the Engineer-in-charge shall be available for use of persons employed on the site and maintained in a condition suitable for immediate use, and the contractor shall take adequate steps to ensure proper use of equipment by those concerned.

* Those engaged in handling any material, which is injurious to eyes, shall be provided with protective goggles.

* Those engaged in welding works shall be provided with welder's protection eye-shields.

* The contractor shall not employ men below the age of 18 and women on the work of painting with products containing lead in any form. Whenever men above the age of 18 are employed on the work of lead painting, the following precautions shall be taken:-

- (i) No paint containing lead or lead products shall be used except in the form of paste or ready.
- (ii) Suitable face masks shall be supplied for use by workers when paint is applied in the form of spray or a surface having lead paint dry rubbed and scraped.

- (iii) The contractor to workmen shall supply overalls and adequate facilities shall be provided to enable working painters to wash during and in cessation of work.

k) HAND & POWER TOOLS

- Hand and power tools must be maintained in a safe condition, whether furnished by the contractor or by the employee. When power-operated tools are designed to accommodate guards, they must be equipped with appropriate guards when in use. Belts, gears, shafts, pulleys, sprockets, spindles, drums, flywheels, chains and other moving parts of equipment must be guarded if the parts are exposed to contact by employees.
- All hand-held power tools must be equipped with a constant pressure switch that shuts off when the pressure is released. Electric power-operated tools shall be of the approved double insulated type, or grounded in accordance with good electrical practice. Pneumatic power tools must be secured to the hose or whip by positive means. Safety clips or retainers must be maintained on pneumatic impact (percussion) tools to prevent attachments from being accidentally expelled.
- Pneumatically driven nails, staplers, and similar equipment provided with automatic fastener feed that operate at more than 100 psi pressure at the tool must have safety devices on the muzzle to prevent the tool from ejecting fasteners, unless the muzzle is in direct contact with the work surface.
- Hoses shall not be used for hoisting or lowering tools, and hoses exceeding ½ In inside diameter must have a safety shutoff at the source of supply to reduce pressure in case of a hose failure.
- All fuel-powered tools must be stopped while being refueled, serviced, or maintained.
- Only trained employees may be allowed to operate a powder actuated tool. Such tools must be tested each day before loading to see that the safety devices are in proper working condition, in accordance with manufacturer's recommended test procedure. Tools shall not be loaded until just prior to the intended firing time. Neither loaded nor empty tools are to be pointed at any employee, and hands shall be kept clear of the open barreled end. Fasteners shall not be driven into very hard or brittle materials such as cast iron, glass block, face brick, hardened steel, or hollow tile.
- For driving into materials that are easily penetrated, appropriate backing must be available to prevent the pin fastener from passing completely through.
- All employees using abrasive wheels must use eye protection, and other tools must be operated using appropriate personal safety equipment.

l) LADDERS

Use of Ladders and Folding Step-Ladders

- This regulation applies to all ladders and pairs of steps but not roof ladders and crawling boards.
- Ladders Must :
 - i) be fixed near the top if practicable, or near the bottom if no : if suspended they must be secure.
 - ii) be placed (except when suspended) on a firm level base; they must not stand on loose packing (e.g. bricks).
 - iii) be intermediately secured, where necessary, to prevent swaying and sagging, and
 - iv) be supported, or suspended, equally on each stile.
- If a ladder, standing on the ground, cannot be fixed to prevent slipping, then someone must hold it at the base when it is being used.

- A ladder which is not more than 3 m in length, need not be fixed or footed, provided it is securely placed so as to prevent it from slipping or falling. This exemption does not apply to ladders which are used as a means of communication between one working place and another, or to suspended ladders.
- Ladder must :
 - i) extended at least 1.05 m above any landing place beyond the highest rung from which a person may be working, or have a nearby handhold of equivalent height.
 - ii) be place so that there is space behind each rung for proper foothold (e.g. no rung should coincide with a scaffold tube).

m) ANTI-MALARIAL PRECAUTIONS

The contractor shall at his own expense, conform to all anti malarial instructions given to him by Engineer in charge including the filling up of any borrow pits which may have been dug by him.

n) SAFETY CODE

- i) First aid appliances including adequate supply of sterilized dressings and cotton wool shall be kept in a readily accessible place.
- ii) An injured person shall be taken to a public hospital without loss of time in case where the injury necessitates hospitalization.
- iii) Suitable and strong scaffolds should be provided for workmen for all works that cannot safely be done from ground.
- iv) No portable single ladder shall be over 8 meters in length. The width between the side rails shall not be less than 30 cm. (clear) and the distance between two adjacent rungs shall not be more than 30 cm. When a ladder is used, an extra mazdoor shall be engaged for holding the ladder.
- v) The excavated material shall not be placed within 1.5 meters of the edge of the trench or half of the depth of trench whichever is more. All trenches and excavations shall be provided with necessary fencing and lighting.
- vi) Every opening in the floor of a building or in a working platform is provided with suitable means to prevent the fall of persons or materials by providing suitable fencing or railing whose minimum height shall be one meter.
- vii) No floor, roof or other part of the structure shall be so overloaded with debris or materials as to render it unsafe.
- viii) Workers employed on mixing and handling material such as asphalt cement mortar and lime mortar shall be provided with protective footwear and rubber hand-gloves.
- ix) Those engage in welding works shall be provided with welder's protective eye-shields and gloves.
 - No paint containing lead or lead products shall be used except in the work of paste or readymade paint.
 - Suitable face masks should be supplied for use by the workers when the paint is applied in the form of spray or surface having lead paint dry rubbed and scrapped.

- x) Overalls shall be supplied by the Contractor to the painters and adequate facilities shall be provided to enable the working painters to wash during the period of cessation of work.
- xi) Hoisting machines and tackle used in the works, including their attachments, anchorage and supports shall be in perfect conditions.
- xii) The ropes used in hoisting or lowering material or as a means of suspension shall be durable quality and adequate strength and free from defects.

3. SCOPE OF WORK:

The detailed scope of work, Bill of Quantities and specifications are as follows-

Sr. No.	Item Description	Quantity	Unit
1	Bamboo Scaffolding: Providing & erecting Double stage bamboo scaffolding in true vertical position with necessary staging at regular intervals as per site requirement with all necessary accessories. The scaffolding to be jointed with coir strings etc. complete.	1,650.00	Sqm.
2	Demolishing brick tile covering in terracing (up to 150mm thickness) including stacking of serviceable material and disposal of unserviceable material within 50 metres lead.	120.00	Sqm.
3	Exposing:- Dismantling RCC members carefully of any size/shape, as directed, without damaging other parts of the building, other parts of the building, cutting /removing the steel bars, removing /carting away the debris, cleaning, etc. complete. Due care shall be taken so as not to damage surroundings etc. complete.	400.00	Sqm.
4	Corrosion Treatment: Providing all materials & labour, cleaning the exposed reinforcement with wire brush & applying rust removing chemical with applying bonding coat of cement & rust passivator in the ratio of 1:1 to make it ready to receive further treatment etc. complete.	200.00	Sqm.
5	Polymer modified mortar:- Thick to receive homogeneous polymer mortar removing the loose concrete plaster etc. clean the surface with air blower & water jet. Clean the reinforcement with wire brush, apply rusticide & clean the reinforcement thoroughly Applying 2 coats of polyalk Fixoprime & cement mixture to the reinforcement bonding and applying polymer mortar consisting of polymer, cement and quartz sand (1:5:15) water in layers of average thickness 10-15mm Before application of each layer of the polymer mortar a bonding coat will be applied etc. complete (Up to 20 mm thick).	400.00	Sqm.

6	Crack Filling: Cleaning the crack with help of Air blower & water jet, Filling the cracks with the help of polymer putty/crack filling material and sealing the cracks etc. complete.	100.00	Rmt.
7	Chemical Grouting : Drilling the holes with help of Mechanical drilling machine, Grout Chemical (Acrylic Polymer) with required (high) pressure grouting pump into hollow pockets including cutting nipple after curing etc. complete.	200.00	Nos.
8	DASH COAT: Providing and applying dash coat up to 25mm with PP Net on existing stone masonry wall surface in cement mortar in proportion 1: 4 including addition of waterproofing approved waterproofing compound/plasticizer, to make up of lost bricks.	700.00	Sqm.
9	Breaking of existing plaster:- Removing / breaking carefully the existing plaster including the tiles on the surface wherever required, of any thickness, as directed,, disposing off the debris, cleaning , etc. complete.	1,300.00	Sqm.
10	Separation crack treatment at the junction of RCC frame and RCC pardi walls/ masonry separation cracks treatment by opening the cracks into a "V" groove, clean & moisten the groove, apply priming cum bonding coat of Polymeric mortar modifier/ cement slurry of approved manufacturers in proportion 1:1 by weight with brush to grooved surface, immediately fill the groove with Polymer modified mortar, which is prepared by mixing 2 Kgs of Polymeric mortar modifier + 5 kgs of fresh cement + 15 kgs of quartz sand (graded). After 15-20 minutes level the surface with steel trowel including 48 hours curing bt sprinkling water for 2-3 days etc. as per directions complete.	200.00	Rmt.
11	Crack Bridging Coating: - Applying crack bridging/waterproofing coating to external wall surface of the building at identified location for filling micro cracks.	400.00	Sqm.
12	Truck for removal of Debris including loading, labour, vehicle etc. charges and dumping of debris outside the institute premises to designated areas.	20.00	Nos.
13	Sand Face Plaster :- Providing Applying 35mm Sand face cement plaster in two coats, using approved river sand, first coat of required thickness in C.M 1:4 with addition of approved waterproofing compound/plasticizer, finishing to line, level & plumb, etc. complete as per specifications and as directed by the consultants. Second coat 15 mm thick in C.M. 1:3, finishing, cleaning, curing etc.		
a.	Plaster 15mm (Internal Plaster)	300.00	Sqm.
b.	Plaster 35mm (External Plaster)	1,000.00	Sqm.
14	WATER PROOFING Brick bats treatment-up to depth of 150mm	120.00	Sqm.
	Providing and laying integral cement based water proofing treatment including preparation of surface as required for treatment of toilet slab etc. consisting of following operations.		
	Applying and grouting a slurry coat of neat cement using 2.75 kg/sqm. of cement admixed with proprietary water proofing compound conforming to		

	IS: 2645 over the RCC slab including cleaning the surface before treatment.		
	Laying cement concrete using broken bricks/brick bats 25 mm to 100 mm size with 50% of cement mortar 1:5 (1 cement : 5 coarse sand) admixed with proprietary water proofing compound conforming to IS :2645 to required slope and treating similarly the adjoining walls up to 300 mm height including rounding of junctions of walls and slabs.		
	After two days of proper curing applying a second coat of cement slurry admixed with proprietary water proofing compound conforming to IS: 2645.		
	Finishing the surface with 20 mm thick joint less cement mortar of mix 1:4 (1 cement :4 coarse sand) admixed with proprietary water proofing compound conforming to IS : 2645 and finally finishing the surface with trowel with neat cement slurry and making of 300x300 mm square.		
	The whole area so finished shall be flooded with water for a minimum period of two weeks for curing and for final test. All above operations to be done in order and as directed and specified by the Engineer-in-Charge.		
15	Providing & laying China mosaic treatment with broken glazed/ ceramic tiles in proper workman like manner and laid to slopes including 20mm thick bedding material in CM 1:6 with cleaning the surface & leaving the surface stain free, etc. complete.	120.00	Sqm.
16	EXTERNAL PREMIUM ACRYLIC PAINT	1,700.00	Sqm.
	Providing & applying Premium External Acrylic paint on walls of required shade after applying base coat & primer as per manufacturer's specifications in proper line & level & even colour texture, without patches.		
17	PREMIUM PLASTIC EMULSION	600.00	Sqm.
	Providing & applying plastic emulsion paint on walls, columns & ceilings. The rate shall include scrapping, leveling & preparing the surface. Primer coat + (minimum) 3 coats to get evenly spread quality finish (roller finish) of approved make, quality & finish shall be provided.		
18	BIRLA PUTTY	500.00	Sqm.
	Providing and applying 2 or more coats of Birla Putty Including scrapping of existing Old Damaged Paint Surface even & smooth to receive New Paint.		
19	Synthetic Enamel Paint: Painting with synthetic enamel paint of approved brand and manufacture of required colour to give an even shade: One or more coats on old work.	150.00	Sqm.
20	Vitrified Tile Dado: Providing and fixing 24" x 24" approved quality, make & shade of VITRIFIED tiles as per pattern for dado from FFL using CM 1:4 in proper line and level. The rate shall include necessary backing material, water proofing and joint filling compound of the same shade as that of the ceramic tiles. All sanitary fittings shall be located on the joints or junctions of the tiles.	5.00	Sqm.

4. APPROVED MATERIAL MAKES:

Sl. No.	Particulars of Item	Approved Brands
1	Cement	Ultra tech/ACC/Birla
2	Waterproofing Chemicals/Compounds	Sunanda/Pidilite/Fosroc/BASF/Sika
3	Polymer modified Mortar	Sunanda/Fosroc/BASF/Sika
4	Putty	Birla/J K
5	Paints	Asian Paint/Nerolac/Burger
6	Vitrified tile	Kajaria/Johnson

SECTION-'F'
ARTICLES OF AGREEMENT

THIS CONTRACT AGREEMENT (“Agreement”) made at Mumbai on this _____ 2020

BETWEEN

INDIRA GANDHI INSTITUTE OF DEVELOPMENT RESEARCH, a Society established by Reserve Bank of India and registered under Societies Registration Act, 1860 and having its office at Gen A. K. Vaidya Marg, Goregaon (East), Mumbai – 400 065, hereinafter referred to as “the Institute” (which expression shall, unless it be repugnant to the meaning or context thereof, be deemed to mean and include its successors and assigns) of the One Part;

AND

M/S _____, a company/Proprietary concern of Mr. _____ and having its office at _____ (address). Hereinafter referred to as “**the Contractor**” (which expression shall, unless repugnant to the context or meaning thereof, be deemed to mean and include his heirs, administrators and executors) of the Other Part.

WHEREAS

WHEREAS IGIDR desirous of awarding the contract for **Repair & painting works of ‘G’ buildings** at its campus situated at Gen. A.K. Vaidya Marg, Santosh Nagar, Goregaon (East), Mumbai 400065, issued a Tender dated _____ 2020 (“the Tender”) inviting bids for procuring certain as stated therein.

AND WHEREAS after having studied the terms of the Tender and upon understanding the requirement of IGIDR, the Contractor has submitted his response vide his letter dated _____ 2020.

AND WHEREAS considering the response of the Contractor, IGIDR has agreed to appoint the Contractor and the Contractor has agreed to undertake the contract for **Repair & painting works of ‘G’ buildings in the campus of the Institute** situated at Gen. A. K. Vaidya Marg, Santosh Nagar, Goregaon (East), Mumbai 400 065 according to the terms and conditions herein.

NOW THEREFORE THIS AGREEMENT WITNESSETH AS FOLLOWS:

1. The Institute is desirous of availing the services of persons/ firms/ companies to carry out **Repair & painting works of ‘G’ buildings in the campus of the Institute** and has caused Bill of Quantities showing and describing the work to be done prepared by the Institute. The said specifications and the schedule of Quantities have been signed by or on behalf of the parties hereto.

2. The Contractor has agreed to work assigned to it in consonance with the said Agreement and subject to the terms stated there under and has agreed to carry out the work assigned to it under the supervisions of the Institute.
3. The Contractor has agreed to execute upon and subject to the conditions set forth herein and in the correspondence attached hereto and to the Conditions set forth in the Special Conditions, Technical bid and Terms & Conditions of Contract (all of which are collectively herein after referred to as "**the said Conditions**") the works described in the said Specifications and included in the said Schedule of Quantities at the respective rates therein set forth amounting to the sum as therein arrived or such other sum as shall become payable there under (hereinafter referred to as "**the said Contract Amount**").
4. In lieu of the consideration herein mentioned the Contractor will upon and subject to the conditions annexed carry out and complete the work shown upon the Contract and described by or referred to in the Schedule of Quantities and in the said conditions.
5. The Institute shall pay the Contractor the Contract Amount, or such other sum as shall become payable, at the times and in the same manner specified in the said Conditions.
6. The said conditions and Appendix thereto and the correspondence attached hereto shall be read and construed as forming part of this Agreement and the parties hereto shall respectively abide by, submit themselves to the said conditions and the correspondence and perform the agreements on their part respectively in the said Conditions and the correspondence contained.
7. The tender, agreement and documents mentioned herein shall form the basis of this contract.
8. This Agreement is neither a fixed Lump sum Contract nor a Piece Work Contract, but it is a Agreement for the complete work, the Contract Amount whereof is to be paid for as per the actual quantities at the rates contained in the Schedule of Rates and Probable Quantities or as provided in the said Conditions. The Contractor has to visit the site & acquaint himself with the site condition & also the part work done therein by the previous Contractor. As the nature of the work comprises of completing the balance incomplete work, the new Contractor should carefully study the present site condition & quote the rates accordingly. No claims will be entertained later for any lapse on the Contractor's part in having studied the present site condition.
9. The Contractor shall afford every reasonable facility for carrying out of all works or other Contractor's appointed by the Institute and shall make good any damages done to walls, floors etc. after the completion of such works.
10. The Institute reserves to itself the right of altering the items to be executed by adding to or omitting any items without prejudice to this Agreement. However, the Contractor shall not be entitled to any payment

for the works done exceeding the Tender Quantities unless specifically approved in writing by the Institute.

11. Time shall be considered as the essence of this Agreement and the Contractor hereby agrees to commence the work job from 4th day of issue of work order as provided for in the said Conditions and to complete the entire work within **2 (two) months**, subject nevertheless to the provisions for extension of time.
12. The payments for running bills & final bill shall be made subject to quantity and quality check in the format approved by the Institute and the Contractor. The payment shall be processed by the Institute only after recommendation by the Contractor with proper documentation.
13. The Contractor should complete the work as per the work schedule annexed as **Annexure I**. The Contractor also binds to depute its team/ manpower at site during execution work as per enclosed organization chart/schedule.
14. All payments by the Institute under this Agreement will be made only at Mumbai.

15. **AMENDMENT**

This Agreement may be amended, modified or supplemented only by a written instrument duly executed by a duly authorized representative of each of the parties.

16. **DISPUTE RESOLUTION**

16.1 In the event of any dispute as to the subject matter of the present Agreement arises, the parties hereto shall submit to mediation before the Registrar of IGIDR. IN the event either party is dissatisfied with the decision of the Registrar, the dispute shall be resolved in accordance with clause 16.2 below.

16.2 In the event that the Contractor disagrees with the decision made by The Registrar, Indira Gandhi Institute of Development Research, Goregaon, the dispute shall be settled by Arbitration in accordance with the provisions of Arbitration and Conciliation Act, 1996 or any enactment thereof. The Arbitral Tribunal shall consist of a Sole Arbitrator to be appointed by IGIDR. The place of Arbitration shall be Mumbai and any award whether interim or final, shall be made, and shall be deemed for all purposes between the parties to be made in Mumbai. The Arbitration Proceedings shall be conducted in the English language and any Award or Awards shall be rendered in the English Language. The procedural law of the Arbitration shall be the Indian Law. The Award of the Arbitrator shall be final, conclusive and binding upon the Contractor and IGIDR.

17. GOVERNING LAW AND JURISDICTION

The law governing this Agreement shall be the laws of India, shall be limited to the Courts in Mumbai, irrespective of the place of the cause of action and rights and liabilities of the Parties hereto.

18. STAMP DUTY

The Parties agree that stamp duty payable on this Agreement shall be borne and paid by the Contractor alone.

IN WITNESS WHEREOF the parties have hereto set and subscribed their respective hands and seals the day, month and year first above written.
