Indira Gandhi Institute of Development Research (IGIDR) is an advanced research institute **established and fully funded by the Reserve Bank of India** for carrying out research on development issues from a multi-disciplinary point of view.

On December 28, 1987 the campus was inaugurated by Late. Shri Rajiv Gandhi, the then Prime Minister of India.

Subsequently, the Institute was recognized as a Deemed University under Section 3 of the UGC Act. Since then it has been awarded the highest National Assessment and Accreditation Council (NAAC) rating of A++ (under the old methodology) given to Indian academic institutions.

Starting as a purely research institution, it rapidly developed into a full-fledged teaching cum research organisation when it launched a Ph.D. program in the field of development studies in 1990. In 1995, the institute initiated the M. Phil programme. The M.Sc. programme commenced in 2003 to introduce students to the world of research at an early stage.

### **Vision and Values**

We strive to conduct and promote research on development from a broad inter-disciplinary perspective. The institute undertakes projects and activities that are useful in furthering development and social welfare. It strives to promote co-operative endeavour and interaction between research scholars and institutions in India and abroad, while simultaneously encouraging specialized training for advanced degrees (Masters and Doctorate).

## **ABOUT THE INSTITUTE**

## MESSAGE FROM THE DIRECTOR

Indira Gandhi Institute of Development Research (IGIDR) is an advanced teaching and research Institute. It offers M.Sc (Econ.), M.Phil & Ph.D degrees in development studies and provides professionally training in most branches of economics from a multi-disciplinary perspective.

The teaching program has a cutting edge curriculum and accomplished faculty. It has a vibrant student body which is diverse in its academic background as well as national character. Its teaching program is unique in terms of research assistantships which give an opportunity to students to assist the faculty in research projects. In these projects, they handle large datasets, use advanced quantitative techniques and learn how to interpret to results. Quantitative techniques, analytical insights and field experience are all blended in the research projects as well as various courses offered.

No wonder that our graduates develop wide-ranging expertise on several broad fronts. Our students have gotten jobs in reputed corporate firms, banks, research institutes, universities and NGOs. It reflects the quality of teaching and research at IGIDR.

## WHY HIRE US?

IGIDR strongly believes that the generation of ideas provides a base to the framework of success but it goes hand in hand with the art of communicating the same ideas to others. The institute focuses on the skills of the students to present their ideas in front of their teachers and peers.

Apart from the gain on the theoretical front, the academic programme at IGIDR is rigorous with a strong inclination towards the honing of the students analytical skills. Students are made familiar with a variety of data analytics software like R, SAS, STATA, EViews and MATLAB.

The application of theory in an appropriate analytical framework, along with empirical evidence, is an assured test of the students understanding of the concepts at hand and ensures that he/she is comfortable with handling big datasets.

The course requires students from diverse backgrounds to work together and share knowledge. The environment provided by the college ensures a holistic approach to the development of students both at the personal and professional level.

### **Alumni Committee**

This committee endeavours to strengthen bonds with the IGIDR fraternity and bring together the student community from current and previous batches.

### **Cultural Committee**

The cultural committee helps students bring their talent to the stage with a cultural week that involves dance, music, debating, art and drama. The committee also organises the celebration of numerous festivals recognising the diverse backgrounds of the students on campus.

### **Movie Club**

It screens a mixed-bag of movies, after conducting a weekly campus wide poll, ranging from mainstream to alternative cinema. This provides the student the opportunity to rejuvenate after a hectic week of lectures.

### **Sports Committee**

This committee ensures the smooth running of various sporting events held during a biannual sports week that consists of games like badminton, cricket, swimming, chess, carom, table tennis and athletics. The committee also helps maintain the sports equipment and infrastructure at the college throughout the academic year.
